

Checklist for Obtaining a Building Permit

- 1. SITE AND SOIL EVALUATION:** Submit application form and fee with Oldham County Health Department.
FEE: \$300
Allow 10-14 days for field work to be completed. Field work needs to be completed before an on-site construction permit can be issued. A backhoe **will** be required.
- 2. ON-SITE SEWAGE CONSTRUCTION PERMIT:** Obtain permit form from the Oldham County Health Department.
FEE: \$300
A drawing of the proposed septic system is required for issuance of permit.
- 3. NOTE: A certified installer applies for the permit unless the homeowner intends to install the septic system.**
 - The proposed lateral field area needs to be protected. No regrading or heavy equipment should be allowed on this area.
4. Once the above requirements are met, a certificate will be issued for submission to planning and zoning for obtaining a building permit.
